Sarah Schlossberg will moderate the "Emerging and Diverging State ESG Requirements" panel at the Association of Corporate Counsel Greater Philadelphia GC/CLO Summit. ESG has become a polarizing topic in today's corporate world. While sustainability and ESG, especially S, gained significant focus after the events of George Floyd's murder and the Covid-19 pandemic, the anti-ESG movement has gained traction. This panel will explore various ESG-related regulations being introduced by different states, their impacts on businesses and industries, and the potential challenges and opportunities they present. This panel will also explore how companies and investors are navigating these differing requirements and the potential implications for long-term business practices and available investment strategies.
