OSHA has drafted its Emergency Temporary Standard (ETS) requiring employers with more than 100 employees to either be vaccinated or tested for COVID-19 weekly and it is waiting to be released by the White House. In light of the imminent release of this important regulatory requirement for large employers, we have scheduled a webinar in advance to address the latest news on the standard and any anticipated or filed legal challenges.

This webinar will cover:

- Overview of OSHA ETS requirements
- Coverage questions regarding number of employees, affiliated companies, etc.
- Types of testing permitted, and who is required to pay
- Reasonable accommodation obligations under federal and state law
- Conflicts between the OSHA ETS and the Texas Governor's Executive Order
- Adoption of the ETS by State safety agencies
