

The Intersection of Intellectual Property and Commercial Arbitration

Location

Webinar

Date & Time

Start Date: 05/25/2021

Cozen O'Connor attorneys will be presenting on the practical considerations for arbitrating disputes that involve intellectual property. Arbitration is an increasingly popular venue to resolve IP licensing disputes, but parties should be prepared for a proceeding that can differ considerably from district court litigation. They will discuss best practices for license drafting and selecting an arbitrator, understanding the AAA's Supplemental Patent Rules, and the role of fact witness and expert testimony at the arbitration hearing.
