

Rent Control: Lessons from Recent Experiences

Location

The Westin Michigan Avenue Chicago
909 North Michigan Avenue
Chicago, IL 60611

Susy Forbath will serve as a panelist at the Manufactured Housing Institute's 2019 NCC Fall Leadership Forum in Chicago. The event is designed for executive level attendees involved with manufactured home communities as an investor, manufacturer, broker, or lender. As rent control has reached a fever pitch with some states and localities adopting new legislative measures and others poised to take action, Susy's panel will focus on how rent control regulations are impacting this sector of the housing industry and best practices through a resident-focused approach to avoid burdensome measures by state, local, and federal regulators.
