Collecting Difficult Stuff: Considerations for Social Media and Third-party Application Collection & Emerging Applications to Consider for Collection

Location

Webinar

Date & Time

Start Date: 07/18/2024
Start Time: 1:00 pm EDT
End Time: 2:00 pm EDT

Join us for an insightful webinar on "Collecting Difficult Stuff: Considerations for Social Media and Third-party Application Collection & Emerging Applications to Consider for Collection," where we will explore the complexities of data collection from social media and messaging platforms. This hour-long session will delve into crucial topics such as the challenges of data possession, custody, and control in social media and the unique difficulties presented by ephemeral messaging. Attendees will learn best practices for collecting ephemeral messages, understand the risks associated with relying on screenshots, and gain insights into the apps and trends that will shape the future of data collection in eDiscovery. We will provide practical guidance and emerging strategies to navigate these evolving challenges, ensuring a thorough and defensible collection process. **CLE is approved in NY, PA, CA, IL, TX, and NV. NJ and FL are approved through reciprocity. All other jurisdictions will be applied for upon request.**
