Cozen O'Connor's **Subrogation and Recovery** department will host a seminar titled, "Subrobball — an examination into the use of advanced skills and metrics to enhance recoveries." The seminar will examine the use of psychology to influence an adversary's position; the impact of self-driving cars and related technologies in proving liability for auto PD claims; investigating product failures by using the internet of things; cutting-edge approaches to preserving loss sites, including capturing information presumed lost and analysis of heat sources (including spontaneous combustion); and use of black box data in IM and trucking accidents.

Topics:

- How to Motivate Your Opponent's Cognition to Increase Recovery - **Philip T. Carroll** and Jerry Nolan, NSS
- Spontaneous Combustion: Ignition with a Spark - **Cheri L. MacArthur**
- Inland Marine Cargo Claims - Recovering From the Carrier for Damage to Goods - **James D. Dendinger**
- Driving Forward: The Effects of Autonomous Vehicles on Claims and Litigation - **Traci L. Boyle**
- Using Technology to Avoid Spoliation of Evidence and Enhance Trial Presentation - **Daniel J. Luccaro** and Jason Karasinski, Fire Research & Technology
