

Solar Powered Subrogation: Powering Tomorrow's Subrogation Opportunities

Location

Webinar

Date & Time

Start Date: 11/04/2021
 Start Time: 11:00 a.m.
 End Time: 12:00 p.m. (EDT)

Speakers

Anthony J. Morrone and Jason McPherson, MSEE, PE, IntPE., Forensic Electrical Engineer at MSD Engineering, will be presenting a webinar. As a renewable technology, solar power is seen by many as the energy source of the future. As the use of solar power has proliferated, so have casualty losses associated with the design, installation, and use of solar power-related equipment. This presentation will focus on the evolving use and technology associated with solar power as well as provide you with an overview of the laws governing its use and the nature and type of opportunities for subrogation growing out of solar power-related losses.
