

Italy Practice Featured by Italian Press for Critical Role in Assisting Leading Companies Achieve Expansion during COVID-19 Challenges

Monday, April 26, 2021

Christian Moretti and Cozen O'Connor's Italy Practice were featured in *Top Legal* magazine in an article discussing legal developments and market trends as well as opportunities for Italian companies in the United States and China. In addition to the 3Fs (food, fashion, and furniture), many Italian companies that are U.S. market leaders in manufacturing, infrastructure, and technology are confronted with legal challenges in the United States due to increasing regulatory requirements, complex intersection of state and federal rules, and the impact of COVID-19. The article features examples of the Italy Practice's experience in managing such legal risks on behalf of Italian companies and government agencies. In addition, the pandemic created unique opportunities for growth for Italian companies and funds in the life science, e-commerce, and technology sectors. The article highlights a few transformative transactions handled by Christian Moretti and the Italy Practice on behalf of Italian life sciences companies at the forefront of the fight against COVID-19.
